

Taking leadership to the next level

Our slate is made up of the current Vice President of the Students' Union, Society Presidents, School Representation Officers, Union Council Members and Sports Captains- we are a team made up of leaders.

We have the expertise...we have the experience...we have the EDGE...

DON'T SIT ON THE LEDGE...VOTE TEAM EDGE!!

As a president of the students union, I will aim to resolve the issues students are currently having at city and promise to improve the social life for city students.

Here are some of the main issues I will look to resolve:

EXAMS/FEEDBACK/TIMETABLING

- Feedback: We will campaign to make it university policy that all students get feedback on exams.
- Timetabling: We will lobby so that exams are reasonably spaced out and so students get timetables at beginning of the year to help them plan.
Students to get text messages to notify of cancelled lectures to avoid unnecessary trips

LIBRARY

- We will lobby for the continual improvement and investment in the library- Level 4 and more money into resources i.e. books, journals and research materials.

STUDENT ACTIVITIES

We will campaign for more investment in the "student experience" including:

- Better and more student gym time
- More funding in societies

SPORTS

More support for students that par-take in representing City University London in Sports/

- Free Wednesdays- Keeping wed afternoons lecture free like most other universities so that students can take part in Sports, extracurricular activities, work experience, part time jobs and widening participation.
- More Funding for Sports facilities so we stand a better chance to compete with other London Universities

FACILITIES/SERVICES

- More cash points on campus
- More social space for students
- Cheaper Food in university/ more variety in Students' Union

EVENTS/INTEGRATION

- More events that bring together different schools
- Gradations to move to July rather than scattered over different months, so that all students can have graduation ball.
- More political and educational events that bring together different students from different cultures and background

ENVIRONMENTAL

- More water fountains around university
- Free cups for the free water in the main refectory!
- Improving from bronze to silver in the Sound Impact Awards. (Scheme which measures how “green” your Students Union is.)

**ALL LEADERS IN ONE TEAM...CLEARLY THE SLATE
WITH THE MOST STEAM**
