

## **TEAM EDGE**

### *Taking leadership to the next level*

*Our slate is made up of the current Vice President of the Students' Union, Society Presidents, School Representation Officers, Union Council Members and Sports Captains- we are a team made up of leaders.*

*We have the expertise...we have the experience...we have the EDGE...*

## **DON'T SIT ON THE LEDGE...VOTE TEAM EDGE!!**

**VOTE NUMBER 1... MOHAMMED REZAUL ISLAM (FINAL YEAR BSC INFORMATION SYSTEMS) & CANDIDATE FOR VICE PRESIDENT EDUCATION.**

I believe that I am the ideal candidate as I have the essential characteristics and boast an abundant level of enthusiasm, determination and activeness to fulfil the role at City University to provide the 24,000 students with the best possible resources and a range of options. Also breaking down the barrier between the whole student body and the people who run the Student Union. I can do this because I am highly professional, which is vital when sitting on committees such as APPSC and Senate.

Along with my excellent organisation and communication skills, which is evident throughout my years at City, speaking to students from diverse backgrounds and various schools and courses, I have learnt about key educational issues and understand and comprehend the needs of the students.

I have valuable experience as I am previous president of City University Bengali Society and currently the Vice President, within this role and generally organise events and network with students, so this will enable me to oversee the programme representative's network, ensuring that arrangements are made to recruit and train reps, hold the network representation day and ensure measures are in place for reward and recognition for all student reps.

A few things I would like to change:

#### **EDUCATIONAL/ACADEMIC**

##### **EXAMS/FEEDBACK/TIMETABLING**

- Feedback: I will campaign to make it university policy that all students get feedback on exams.
- Timetabling: I will lobby so that exams are reasonably spaced out and so students get timetables at the beginning of the year to help them plan.  
Students to receive text messages to notify of cancelled lectures to avoid unnecessary trips.

##### **LIBRARY**

- I will lobby for the continual improvement and investment in the library- Level 4 and more money into resources i.e. books, journals and research materials.

##### **VLE**

- Virtual Learning Environment- secure students with a more user friendly, all encompassing VLE system which incorporates all systems into one. Also more digital signage so students can see what rooms and computers are free.

**ALL LEADERS IN ONE TEAM...CLEARLY THE  
SLATE WITH THE MOST STEAM**
