Elected Sports Officer (Part Time)

Date: 17/11/2014
Proposer: Natalia Rajapakse
Seconder: Issy Cooke

This Union Notes:
1. Students who take part in campus team sports and clubs make up a significant proportion of the student body. Over 500 students are involved in sports teams.
2. City University London has invested £130 million into the CitySport facility. This commitment to sports facilities is reflected in the key performance indicators as part of the University’s Education and Student Strategy.

This Union Believes:
1. Sport is a key part of the student experience and can enhance the wellbeing of students.
2. We need to emphasise and recognise the need for sports representation in the University and CULSU
3. Without adequate sports representation students miss out on opportunities for co-curricular development.
4. The limited membership in CULSA currently means that students who have difficulties in participating in sports e.g. due to accessibility issues, do not have effective representation to address these issues.

This Union Resolves:
1. To create a Sports Officer position in principle and elect through the CULSU elections to represent students on sport related issues.
2. To work with the CULSU executive and trustee board to endeavour to develop this role ready for election in February 2015.
3. To write the job description within a month and aim to get Trustee approval as soon as possible.
